

CONSENT TO BE CONTACTED FOR FUTURE RESEARCH

What is the purpose of this consent? CereScan[®] is frequently engaged to participate in and source subjects for various research projects and clinical trials (“Study or Studies”). These Studies are often designed to lead to better treatments for the types of medical problems experienced by the people who come to this clinic. We want to know if you wish to learn more about their Studies or if you may wish to participate in any of the Studies that may be appropriate for you. By opting in, you will allow qualified professional people from CereScan[®] to contact you in the future to ask if you want to participate in any Studies. You have no obligation to actually participate in any Study.

What happens if I opt in? If you opt in, you are giving consent for limited information to be taken from your CereScan[®] medical records. This information may include information about your diagnosis, your name, medical record number, date of birth, and contact information. This information will be kept indefinitely, unless you withdraw your permission. If a Study on your condition needs subjects, you may be contacted to ask if you want to participate. You do not have to participate. You may withdraw permission to be contacted at any time by contacting the clinic.

What happens if I don’t opt in? Declining to participate will have no influence on your present or future status as a CereScan[®] patient. You will receive the same care as any other patient seen in our clinic. There will be no penalty or loss of benefits to which you are otherwise entitled. Your clinic records will indicate that you do not want to be asked about future research by or through anyone but your treating physician.

Are there any risks to my signing this form? Participation in Studies may involve some loss of privacy. However, your records will be handled as confidentially as possible. Access will be limited to the data managers and the doctors organizing the Studies and will require a password. No information will be used for research without additional permission. Your contact information will not be shared with anyone outside of CereScan[®].

Are there any financial considerations? There will be no cost or payment to you if you decide to consent to be contacted for future Studies.

What do I do if I have questions, now or later? You can talk with a representative at CereScan[®] by calling (866) 722-4806. If you are contacted in the future to discuss a specific opportunity, the study researcher will be able address any questions, concerns or complaints you have about that Study.
